TO BE HELD DEC. 16-17 AMERICAN NAVY IS

Ships at End of Hostilities Numbered 777-Reach 1,-261 by July 1920.

WASHINGTON, Dec. 7.—The American navy will number a total of 1.291 vessels, including 40 battleships and 129 destroyers, on July 1.190, according to a statement prepared by Rear Admiral Griffin, chief of the bureau of steam engineering for the house naval committee.

This statement shows that when war was declared there were 384 ships in the navy, while on Nov. 1, 10 days before hostilities ceased, there were 777, excitisive of privately owned yachts and other vessels taken over for patrol service. The greatest increase was 300 in submarine chasers. The indrease in destroyers was 41, to a total of 92, and that of submarines from 44 to 19. Only two eagle boats had been completed Nov. 1. Ninety-eight others were contracted for, but Rear Admiral Taylor, chief of the bureau of construction and repair, has informed the committee that the navy department has given orders that only 80 of the vessels be completed. Keels for 80 of the eagles have not been laid, but material for most of them has been fabricated. Only two hattleships were added to the fleet during the war, and only one will be added between this time and July 1, 1920. Admiral Griffin said, Six others, however, actually are under construction, and two, the Tennessee and California, are approximately half completed. Work on three others is yet to be started.

Admiral Taylor informed the committee that contracts are yet to be piaced for 29 ships which have been authorized. They include two battle-ships, 12 destroyers, 10 submarines, two destroyer tenders, a repair ship, a transport and a submarine tender.

Work has not yet been started on any of the five hattle cruiters authorized in 1915, the laying down of these vessels and other major cysft having been deferred because of the demand for destroyers during the war. Ninety-five destroyers authorized during the war now are more than half completed.

MASON AND PASHBY TO SELL BONDS IN EAST

Aifred D. Mason, commissioner of accounts, finance and revenue, and C. C. Pashby, city clerk, will leave for New York Sunday to be gone a week looking after financial matters for the city of Memphis.

While in the East, Mason will seek to sell the \$750,000 short-time notes which the city sells each year, beginning last year. He said Saturday that he thought selling notes and bonds in the East would be better for the city than taking bids at Memphis. He believes by this method he can save the city considerable money. These bonds were sold by the council chamber. While in the East, the two will also go into the bond market in Philadelphis and Baltimore. This is the first time the city ever placed its bonds or notes in the East away from Memphis. The custom has been for the bond buyers to come to Memphis to bid for the bonds.

Commissioner Mason said Saturday that less than \$200,000 in 1918 taxes now remains unpaid.
